

# GENERATIONS' PROJECT

## Measuring Impact

### Aims:

- Increase levels of parental engagement for pupil premium children
- Raise parental confidence levels
- Raise the children's confidence
- Increase the opportunities for pupil premium children to access good quality books at home
- Increase academic abilities (long term aim)
- Raise pupil aspirations

### Measurable data:

Impact will be measured in the following ways for the Pupil Premium Generations' Project

- Parent perception surveys
- Pupil perception surveys
- Session attendance records
- Parent and child feedback from each session
- Academic tracking (long term)
- Attendance records of future events (to show sustained impact)
- School attendance records (increased attendance could show increased engagement and confidence)
- Teacher feedback (demonstrating increased involvement in class)

### Attendance:

Out of 19 PP pupils when the project began, we regularly had 10 pupils. After the third session, the number of PP pupils increased to 26. The project was offered to them, but they did not take up the offer of the remaining sessions. 53% attended each week.

It was a mixture of parents and grandparents, whom accompanied the pupils.
