Dear Parents/Carers,

10.11.17

We would like to bring to your attention the "Light up a Tree" campaign for St. George's Park in Great Yarmouth, which an article was written about in the local press not too long ago. Their aim is to enable new illuminations to be installed in the park projecting light up into the trees. However, to achieve this all costs must be raised by the organiser themselves, some £2,800.

We have been asked by the organiser if we would like to get involved and we felt it was important to involve ourselves in charitable community work and aid any development and improvement to our local area.

The organiser's idea is that they will bring in some pebbles, which they would like the pupils to decorate and then keep. In return for the pebble, the pupils are asked for a voluntary donation of a pound.

We thought this would not only be a good cause to support, but also something different the pupils could do on Friday 1<sup>st</sup> December for Decoration Day and then use a Christian/Christmas theme to decorate the pebbles with.

Yours sincerely,

School Council
